CAMP PANDA | GIRLS THINK OF EVERYTHING | TEAM MOON | SCALY SPOTTED FEATHERED FRILLED | MADAM PRESIDENT | LUCY LONG AGO | FRIENDS | A BABY LIKE YOU

During my virtual school visits, I work to engage, connect, interact, inform, and inspire the students. My visits compliment the curriculum and support ongoing teacher efforts. All programs can be adapted for the following grades (K-1) (2-3) (4-6) (7-8).

- 1) **STEMtastic:** Explore the vast fields of STEM through the author's books and through hands-on STEM activities.
- 2) **Behind-the-scenes:** Explore how a book is made — from idea to bound book. Interactive. Students will start their own books.
- 3) **Revising is Your Friend:** Explore how revision makes writing, and subsequent published books, better. Examples from author's work. Hands-on revision activities.
- 4) **So You Want to Write?:** A fully hands-on writing workshop using examples from the author's work and taking students on a journey from idea, through revisions, to finished story.
- 5) **Customize:** The Author will customize a program to fit your specific needs.
